**DETAILED ACTION**

1. This Office action is response to Applicant's AMENDMENT and RCE filed on 12/01/2006
2. Claims 1-16 cancelled dated 11/28/2005 (Restriction/Election).
3. Claims 18-40 have been cancelled dated 12/01/2006.
4. Claims 41-53 have been added dated 12/01/2006.
5. Claims 17 and 41-53 are pending in this application.

***Request for Continued Examination (RCE)***

6. The request filed on 12/01/2006 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 10/696,933 is acceptable and a RCE has been established. An action on the RCE follows.

***Claim Rejections - 35 USC § 101***

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claim 17 is rejected under 35 U.S.C. 101 because a term database is not stored in a physical storage, and it should be well-defined in the application specification.

***Claim Rejections - 35 USC § 112***

9. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

10. Claim 17 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Because the term database should be stored onto a storage medium and it must be well-defined clearly in the application specification.

11. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

12. Claims 41, 43, 44, 45, 47, 48, 49, 50 and 53 recites the limitation

"terms" and "texts" in claim 41, line 2;

"an interface" in claim 43, line 1;

"an interface" in claim 44, line 1;

"a new term" in claim 45, line 1;

"an interface" in claim 47, line 1;

"text" in claim 48, line 2;

"providing **output** comprises providing **output**" in claim 49, line 1;

"text" in claim 50, line 2; and

"a new object" in claim 53, line 1.

There is insufficient antecedent basis for this limitation in the claim.
